FOR IMMEDIATE RELEASE

November 20, 2008

Teen science program at the Greenville County Library System

Greenville, SC – Ever wonder where gasoline comes from? Home-schooled students in 6th-8th grade are invited to this month's Science Station in Meeting Room A at the **Hughes Main Library** on **Monday, December 8 at 2:00p**. This month students will explore how petroleum forms, how deposits are located and how fossil fuels become gasoline and plastics. Students will also get a chance to virtually "strike oil" in the computer training lab. This program is free and open to the public, however, space is limited and registration is required.

Call **242-5000 x2247** or email jbabb@greenvillelibrary.org for more information and registration.

The Hughes Main Library is located at 25 Heritage Green Place, Greenville, SC 29601.

About the Greenville County Library System:

Founded in 1921, the Greenville County Library System operates 11 facilities, a bookmobile, and a website that provide information, materials, and engaging programs delivered with world-class technology and a customer-centric approach. The Library System offers free access to resources and experiences and continually strives to be the community's destination of choice for exploring the world. For more information, visit the Library's website at www.greenvillelibrary.org.
