PUBLIC RELEASE

June 2021

MyCity, SC --

In June of 2021, the County Sheriff's Office received the official postmortem toxicology report from the Medical Examiner's Office related to the suspected murder of Jordan Tulley.

The toxicology testing was attended by investigators of the County Sheriff's Office and the District Attorney.

According to the toxicology report, dated June 2021 and signed by the State Medical Examiner, the cause of death is medically determined to be poisoning by *cicutoxin*. Contents of the deceased's stomach contained water hemlock. The report characterizes the manner of death as murder.

The matter remains under review by the Division of Criminal Investigation in the County Sheriff's Office.
