

KINDNESS ROCKS

WHAT ARE KINDNESS ROCKS?

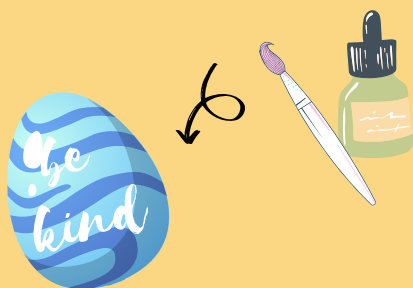

Kindness Rocks are rocks that people paint to spread a message of kindness and love throughout their community. They can include actual words or just a beautiful design. It's up to you and your imagination! If you ever find a rock, take a picture, and then place it somewhere else to spread the kindness.

STEP ONE:

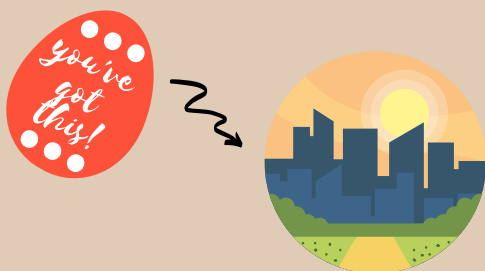

Wash your rock and let it dry. Then, paint your rock! You can create Greenville-themed art, a nature design, or even a literary concept. Try to include a message of kindness!

STEP TWO:

Once you're happy with your design and you've let it dry, cover the painted part in a light coat of sealant, marked with an S on one of the paint pots. Let the rock dry for a full day.

STEP THREE:

Now it's time to place your rock! You can put it in any public place, being careful not to disturb nature. Or you can give it to someone who needs some kindness!
